

Care & Cleaning

Care & Cleaning of Acrylic Units

The surface of the unit is made of extremely durable and glossy acrylic, but the surface is vulnerable to the harsh conditions of a construction site. Please use caution with tools, boots and handling of the unit. It is recommended to save the cardboard from the packaging and place it on the floor to stand on while working on the unit.

The following non-abrasive cleaning products are recommended for cleaning your Accessibility Professionals acrylic tub or shower unit.

- Ivory liquid, Dawn liquid, or any other liquid dishwashing cleansers
- A vinegar and water solution
- Alcohol or mineral spirits may be used on difficult spots to clean

If the unit received has a painted applied textured floor, please use the box which contained the unit as a mat in the unit while doing any plumbing in the unit. This will protect the painted surface and reduce clean-up to a minimum. If dirt does get on the painted surface use any liquid cleaner (Ajax, Pine Sol, etc.) to clean it safely without jeopardizing the textured surface.

Care & Cleaning of Gelcoat Units

Abrasive cleaners must not be used on any gelcoat unit as they may scratch and dull the surface. To clean the unit after installation, use warm water and one of the stronger liquid detergents, such as: Top Job, Liquid Ajax or Mr. Clean. Use these liquid detergents for normal day-to-day cleaning also.

Plaster can be removed with a nylon or polypropylene scrubber. Do not use steel wool, metal scraper, wire brush or other metal tools. One of the powder type detergents, such as Spic & Span, may be used on a damp cloth to provide mild abrasive action to remove residue plaster. Minor stains can be removed with a household strength ammonia or bleach.

A periodic scrub down with a gel gloss or a dishwashing detergent (wear rubber gloves) will usually remove any soap or mineral deposits. Periodic waxing with an automotive polish followed by a light application of liquid wax, such as Johnson's Jubilee will add luster and preserve the finish.

Lighted smoking materials will leave burn marks on fiberglass products. This or other similar damages can often be repaired by rubbing the affected area with an automotive type polishing compound, such as Dupont No. 7, followed by an automotive body wax, such as Simoniz. More severe burns require careful sanding with 400-600 grit wet carborundum sandpaper and a final rub out with the automotive polishing compound and wax.

Extensive damage can be completely repaired. Such repair work should be performed by a professional service repairman in your area. If local service is not available, or if you need further assistance, contact Accessibility Professionals. repair kits with gelcoat included may be purchased through customer service by calling 1-877-947-7769.

If the unit received has a painted applied textured floor please use the box which contained the unit as a mat in the unit while doing any plumbing in the unit. This will protect the painted surface and reduce clean-up to a minimum. If dirt does get on the painted surface use any liquid cleaner (Ajax, Pine Sol, etc.) to clean it.

Warranty Information

Warranty Information

The products manufactured and sold by Accessibility Professionals Inc. are under warranty for a period of three (3) years on gelcoat and five (5) years on acrylic products. This warranty applies to the materials and the workmanship of the product.

If the product shall prove to have material defects, manufacturing defects or other labor defects, during the warranty period, it shall be repaired or replaced at the discretion of the warranty department of Accessibility Professionals Inc.

Exceptions:

1. This warranty shall not apply to incorrect operating procedures, breakage or damage caused by neglect, improper maintenance, abuse, misuse, alterations, alteration or modification to the unit by the buyer or anyone representing the buyer. It will not cover chemical corrosion, natural corrosion, fire or any other act by the force of nature.
2. The buyer of this product is fully responsible for the proper installation of this unit. Accessibility Professionals will not be held responsible for any damages resulting from improper installation.
3. This warranty does not apply to any equipment or accessories not installed by Accessibility Professionals and we will not be held liable for any results of such acts.
4. Accessibility Professionals is not responsible for any consequential or incidental mishaps, inconvenience, time loss, incidental expense, materials or labor related to the installation of hardware or the actual tub.
5. All warranty will be implemented at the discretion of the Accessibility Professionals Warranty Department upon the summation and evaluation of the circumstance involving the product in question.
